

WELCOME BABY

WE AIM FOR ALL CHILDREN TO BE SAFE,
HEALTHY AND PREPARED TO GROW,
LEARN AND ACHIEVE

COMMUNITY PARTNERSHIP FOR CHILDREN

Sheboygan County

UNITED WAY OF
SHEBOYGAN COUNTY

Congratulations!

On behalf of the Sheboygan County Community Partnership for Children, I would like to send you my warmest congratulations on the newest addition to your family. My name is Ryan Wilinski, and I am the Sheboygan County Community Partnership for Children Coordinator. The Community Partnership for Children (CPC) initiative is supported by United Way of Sheboygan County and a diverse team of early childhood experts in the community.

Through this collaboration, our mission is to provide our community with access to resources, awareness and healthy child development. We offer four programs within the CPC that support our mission: Welcome Baby, Parent Café Workshops, Community Developmental Screenings and Born Learning Trails. Through these programs, we have impacted over 5,000 families since we started the CPC initiative in 2016.

Our community understands that being a mother or a father to a child comes with many challenges. To best support your family, this booklet will direct you to many of the resources that are offered in the Sheboygan County community. Our vision is that all children in Sheboygan County are safe, healthy and prepared to grow, learn and achieve.

This partnership was developed to support you. Please do not hesitate to reach out to myself or any of these community partners — we all would love to see your family thrive. Wishing you and your family the best!

Warmly,

Ryan Wilinski

Sheboygan County Community Partnership for Children Coordinator

Welcome from Sheboygan County Families

“Have a sense of humor because your life is going to feel turned upside down the first couple of months. Your rhythm will come back and you will feel like you can finally make time for yourself.”

“Do not read things which take your confidence away from being the best possible parent you can be.”

“When things get tough, know it will pass with time.”

The **Sheboygan County Community Partnership for Children** is a community impact initiative focused on support for children, their families and caregivers.

Welcome Baby Program: It starts with your baby's birth at either St. Nicholas Hospital or Aurora Medical Center. Community organizations have partnered together through the Sheboygan County Community Partnership for Children to offer a visit from a Resource Specialist.

The Resource Specialist is there to connect you to existing resources in Sheboygan County. Through these programs and activities, we hope you feel supported by the community! Families that are interested in a voluntary home visiting program will receive more information. The Resource Specialist can be a contact person in the future as well if you have questions about resources.

Community Partnership for Children Programs

Welcome Baby: The Welcome Baby program offers a visit from a Resource Specialist to parents and their newborn in the Sheboygan County hospitals. During the visit, parents are connected to the Parents as Teachers home visiting program and other community resources to meet their needs.

Parent Café Workshops: Parent Cafés explore the five Strengthening Families Protective Factors through guided peer-to-peer learning, self reflection and conversations that strengthen the social and emotional health of families.

Community Developmental Screenings: Community developmental screening events give parents and caregivers another opportunity to discuss their child's development with trained staff who can share activities to foster healthy child development and connect families to community resources.

Born Learning Trails: Born Learning is a community change strategy designed to boost children's language, literacy, social, cognitive and emotional skills and encourage families to get active. The Born Learning Trails are available 24/7 and are located at Generations at 1500 Douglas Drive in Plymouth and on the Shoreland 400 Trail behind RCS.
